

# The FuseForward Suite on Amazon Web Services (AWS)

## About FuseForward

FuseForward can help you migrate, secure, and monitor your applications on AWS. Our patented technology and fully-managed services are bundled together as the FuseForward Suite.

FuseForward is an Advanced Technology Partner and Standard Consulting Partner for Amazon Web Services (AWS).

## The FuseForward Suite

## Packages to fit your requirements

Our packages provide assurance that you're not paying for services you don't need. Available on a monthly and yearly subscription, we can help you choose a package that will fit your IT and business requirements today, and in the future.

Value	Standard	Premium
<ul style="list-style-type: none"> <li>SMB cloud deployment</li> <li>Web applications</li> <li>Basic industry compliant</li> <li>Small cloud workloads</li> <li>Time-driven monitoring, scaling</li> <li>Internet network connectivity</li> </ul>	<ul style="list-style-type: none"> <li>Departmental cloud deployment</li> <li>Departmental applications</li> <li>Basic industry compliant</li> <li>Medium cloud workloads</li> <li>Time-driven monitoring, scaling</li> <li>HW-VPN network connectivity</li> </ul>	<ul style="list-style-type: none"> <li>Enterprise cloud deployments</li> <li>Enterprise applications</li> <li>Industry standard regulatory compliant</li> <li>Large cloud workloads</li> <li>Event driven monitoring, scaling</li> <li>HW Direct network connectivity</li> </ul>

# Package Features

FuseForward Suite	Value	Standard	Premium
<b>FuseSecure: Application Security</b>			
Perimeter Security (Firewall, Traffic Inspection, ACL's)	✓	✓	✓
User Authentication (Active Directory, ADFS, MFA, SSO)	✓	✓	✓
Data Encryption (Public and Private Data)	✓	✓	✓
Anti-Virus and DDOS Protection	✓	✓	✓
Custom Domain Name		✓	✓
Network Connectivity	FW-VPN	FW-Direct	FW-Direct
Privileged User Access Entitlements	1	3	5
User Access Entitlements	50	150	500
<b>FuseControl: Application Management</b>			
Application Services (Code Repositories, Code Pipelines)	✓	✓	✓
Application Deployment (HA, Active/Passive, Containers)	✓	✓	✓
OS & Middleware (Patches & Updates, Configuration)	✓	✓	✓
Cloud Platform & Application Monitoring	✓	✓	✓
Service Level Monitoring (CPU, RAM, Disk I/O)	✓	✓	✓
Managed Backup (Application and DB Data)	✓	✓	✓
Auto-Scaling Automation	✓	✓	✓
Disaster Recovery		✓	✓
Application Instances	10	25	100
Database Instances	2	4	6
Dedicated Private Clouds (Dev, Stage, Production)	0	2	3
Application Log Retention in GB	500	1,000	3,000
<b>FuseAnalyze: Application Analytics</b>			
Cloud Platform & Application Performance Reporting	✓	✓	✓
Key Performance Indicator (KPI) Libraries		✓	✓
Cloud Cost Optimization Reporting		✓	✓
Analytic Streaming Frequency	Hourly	10 Min	Real Time
Analytic Data Storage GB (Logs, Metrics)	100	250	500
